Academic Program and Course Description Guide

2025

Introduction:

The educational program is a well-planned set of courses that include procedures and experiences arranged in the form of an academic syllabus. Its main goal is to improve and build graduates' skills so they are ready for the job market. The program is reviewed and evaluated every year through internal or external audit procedures and programs like the External Examiner Program.

The academic program description is a short summary of the main features of the program and its courses. It shows what skills students are working to develop based on the program's goals. This description is very important because it is the main part of getting the program accredited, and it is written by the teaching staff together under the supervision of scientific committees in the scientific departments.

This guide, in its second version, includes a description of the academic program after updating the subjects and paragraphs of the previous guide in light of the updates and developments of the educational system in Iraq, which included the description of the academic program in its traditional form (annual, quarterly), as well as the adoption of the academic program description circulated according to the letter of the Department of Studies T 3/2906 on 3/5/2023 regarding the programs that adopt the Bologna Process as the basis for their work.

In this regard, we can only emphasize the importance of writing an academic programs and course description to ensure the proper functioning of the educational process.

Concepts and terminology:

Academic Program Description: The academic program description provides a brief summary of its vision, mission and objectives, including an accurate description of the targeted learning outcomes according to specific learning strategies.

Course Description: Provides a brief summary of the most important characteristics of the course and the learning outcomes expected of the students to achieve, proving whether they have made the most of the available learning opportunities. It is derived from the program description.

Program Vision: An ambitious picture for the future of the academic program to be sophisticated, inspiring, stimulating, realistic and applicable.

Program Mission: Briefly outlines the objectives and activities necessary to achieve them and defines the program's development paths and directions.

Program Objectives: They are statements that describe what the academic program intends to achieve within a specific period of time and are measurable and observable.

Curriculum Structure: All courses / subjects included in the academic program according to the approved learning system (quarterly, annual, Bologna Process) whether it is a requirement (ministry, university, college and scientific department) with the number of credit hours.

Learning Outcomes: A compatible set of knowledge, skills and values acquired by students after the successful completion of the academic program and must determine the learning outcomes of each course in a way that achieves the objectives of the program.

Teaching and learning strategies: They are the strategies used by the faculty members to develop students' teaching and learning, and they are plans that are followed to reach the learning goals. They describe all classroom and extra-curricular activities to achieve the learning outcomes of the program.

Academic Program Description Form

University Name: Al-Qasim Green University

Faculty/Institute: Faculty of Agriculture

Scientific Department: Animal Production Department

Academic or Professional Program Name: Bachelor of Animal Production

Final Certificate Name: Bachelor of Agricultural Sciences/Animal Production

Academic System: annual

Description Preparation Date: 2025/10/12

File Completion Date: 2025/10/12

Signature:

Head of Department Name:

**Prof. Dr. Nihad Abdel Latif
Ali**

1. Program Vision

Leadership in education, scientific research, and community service in the fields of animal production, by qualifying distinguished scientific and practical cadres who contribute to the development of the livestock sector and the achievement of food security and environmental sustainability, at the local and regional levels.

2. Program Mission

Preparing qualified scientific cadres in the field of animal production by offering advanced educational and research programs that keep pace with scientific and technological progress, contribute to the development of sustainable animal production systems, achieve food security, and meet the needs of the labor market, while adhering to professional ethics and serving the community.

3. Program Objectives

General Objectives:

1. Increase animal productivity of meat, milk, eggs, wool, and hides, while improving quality.
2. Improve the efficient use of agricultural resources (feed, water, and land) to achieve economic and sustainable production.
3. Develop local and improved breeds that are adaptable to local environmental conditions.
4. Improve animal farm management in terms of nutrition, breeding, healthcare, and reproduction.
5. Apply modern technologies in the fields of nutrition, genetics, reproduction, and artificial intelligence to improve production.

4. Program Accreditation

There is

5. Other external influences

nothing

6. Program Structure

Program Structure	Number of Courses	Credit hours	Percentage	Reviews*
Institutional requirements	28			
College requirements	Yes			
Department requirements	Yes			
Summer training	There is			
Other				

* This can include notes whether the course is basic or optional.

7. Program Description

Year/Level	Course Code	Course Name	Credit Hours	
2025	UNI113	English	2	
2025	UNI112	Democracy and human rights	2	
2025	ANP1101	Principles of animal production	2	
2025	AGR111	Organic Chemistry	2	3
2025	AGR114	mathematics	3	
2025	ANP1102	Public animal	2	3

2025	UNI121	Arabic	2	
2025	UNI124	computer	1	2
2025	ANP1203	Principles of domestic birds	2	
2025	ANP1204	Plant protection		
2025	ANP1205	Analytical Chemistry	2	3
2025	ANP1206	count	2	
2025	UNI211	Arabic 2	2	
2025	UNI212	Computer 2	2	
2025	ANP2101	Principles of Microbiology	2	3
2025	ANP2102	Baath regime crimes	2	
2025	ANP2103	Fish principles	2	3
2025	ANP2104	Mechanized animal production	2	3
2025	ANP2105	Animal product health	2	3
2025	UNI222	Forage crops and pasture management	2	3
2025	ANP2206	Genetics	2	3
2025	ANP2207	Principles of Dairy Science	2	3
2025	AGR221	biochemistry	2	3
2025	UNI221	English 2	2	
2025	ANP2205	Fish farming and production	2	3
2025		Animal physiology	2	3
2025		Hatching and hatchery management	2	3
2025		animal feed	2	3

2025		Animal production economics	2	
2025		Animal environment and behavior	2	
2025		Design and analysis of experiments	2	3
2025		Animal diseases	2	3
2025		English	1	
2025		poultry feeding	2	3
2025		Raising and improving poultry	2	3
2025		Sheep and goat production	2	3
2025		Beef cattle production	2	3
2025		Poultry management and production	2	3
2025		Pasture Management	2	3
2025		Graduation research project	2	

8. Expected learning outcomes of the program	
Knowledge	
Keeping pace with the development of the livestock industry Part 2 – Keeping up with everything new or useful and adapting it	
Skills	
The ability to understand the basics of working in livestock	

production companies and fields. B2– Dealing with crises and economic problems related to providing food security.	
B3– Building scientific foundations based on scientific research and practical reality in the fields and production companies.	
Ethics	
Developing students' ability to share ideas	

9. Teaching and Learning Strategies

Explain the scientific material to students in detail.

2– Involve students in presenting opinions and discussing scientific questions.

3– Discuss and engage in dialogue about vocabulary related to the topic.

10. Evaluation methods

Weekly, monthly, daily and end of year exams.

11. Faculty

Faculty Members

Academic Rank	Specialization		Special Requirements/Skills (if applicable)	Number of the teaching staff	
	General	Special		Staff	Lecturer

Ali Amin Saeed	Animal production	animal feed			Staff	
Fadhel Rasool Abbas	Animal production	Poultry physiology			Staff	
Nihad Abdel Latif Ali	Animal production	Poultry physiology			Staff	
Muhammad Baqir Sahib	Biology	molecular genetics			Staff	
Tahreer Mohamed Natah	Biology	Animal physiology			Staff	
Imad Abdul Jabbar Ali	Animal production	Poultry physiology			Staff	
Ali Ahmed Alou	Animal production	animal feed			Staff	
Fadel Abbas Radhi	Biology	Animal classification			Staff	
Haider Mohammed Hassan	Animal production	Physiology of reproduction and artificial insemination			Staff	
Oras Salman as Eid	Arabic language	Arabic language			Staff	
Rahman Hussein Hamza	Animal production	Sheep and goat production			Staff	
Najih Jabir THuban	Animal production	Poultry technology			Staff	
Israa Ali Fadel	Animal production	Biotechnology			Staff	

Thamer Radhi Sahib	Animal production	Sheep and goat production			Staff	
Majeed Hamid Abboud	Veterinary medicine	poultry feed			Staff	
Walid Hamid Hassoun	agricultural mechanization	mechanization			Staff	
Hashem Hadi Dakhil	Animal production	Poultry management			Staff	
Rawida Adnan Ali	Animal production	Animal reproductive physiology			Staff	
Haitham Mohammed Hussein	Animal production	animal feed			Staff	
Ali Salim Abdul Karim	Animal production	poultry feed			Staff	
Tamador Hani Hussein	Biology	Animal physiology			Staff	
Israa Luay Al-Jaryan	Biology	Poultry breeding and improvement			Staff	
Haider Kazim Alwan	Veterinary medicine	Animal diseases			Staff	
Salah Mahdi Hadi	Animal production	poultry feed			Staff	
Aeid Bagey Hassan	Veterinary medicine	Microscopic biology			Staff	
Walid Ahmed Mohammed	Animal production	Milk diamond			Staff	
Mohammed Khadir Abbas	Veterinary medicine	Veterinary parasites			Staff	

Amal Faisal Lafta	Biology	Animal reproductive physiology			Staff	
Wissam Salem Rashid	Animal production	animal feed			Staff	
Bashar Ahmed Mohammed	Animal production	Poultry physiology			Staff	
Safa Mahdi Imran	Animal production	Fish diseases			Staff	
Firas Mahdi Abdul Redha	Animal production	Fish farming			Staff	
Alaa Hassan Kazim	Animal production	Poultry management			Staff	
Laith Hamza Marza	Animal production	Poultry physiology			Staff	
Sabreen Salam Abd	Animal production	Poultry physiology			Staff	
Zahraa Hadi Musaibah	Plant production techniques	Plant production techniques			Lecturer	
Heba Hamza Obaes	Animal production	Animal physiology			Lecturer	
Jawad Abdul-Kazem Hamza	Animal production	poultry			Staff	

Professional Development
Mentoring new faculty members
Professional development of faculty members

12. Acceptance Criterion
Student GPA and Direct Admission

13. The most important sources of information about the program

14. Program Development Plan
1- Using new concepts in the field of animal production and automation of artificial intelligence.
